Dear Ms. Idetta Phillips:

The Prisoner Review Board does not supervise any facility nor does it provide any licenses or certifications. The Prisoner Review Board does not have any written rules or regulations regarding hiring of people other than is set out in the policy and procedures manual of Central Management Services.

The Prisoner Review Board does make recommendations for clemency to the Governor and will run a background check on all petitioners who are requesting clemency. The Prisoner Review Board is a law enforcement agency as the Board sets conditions of parole on all parolees. Additionally, the Prisoner Review Board had all confidential information regarding any inmate who has been sent to Illinois prisons.

I hope this assist you with your report.

Very Truly Yours,

Kenneth Tupy
